

The Quasi-Riemann Hypothesis

Original summary — NOT the original paper or model card.

Repository manuscript; independent validation not established · October 5, 2026 [44]

Authors/source: OpenAI

Coverage: quasi-Riemann alternate

What the source reports

Alternative weaker $\text{Re}(s) > 11/12$ proof, not the $7/8$ result illustrated in the video. README explicitly records human assistance. [44]

Managing expectations

Not listed in current formalization.yaml sources; no verified full-paper formalization established here. No independent peer-review certification established by these repository materials. This brief reports the manuscript claim; it is not a verification of its proof. [44]

Original document and sharing status

The original source remains available at the official links below. Full-document redistribution permission was not established, or this topic has no standalone paper. Only this original summary is reproduced here.

Recorded rights: Root repository Apache-2.0; explicit paper/PDF redistribution scope not established [40]
