The Editor would like to alert readers that concerns were raised regarding Fig. 6b, where the CTRL Vehicle mouse appears highly similar to mouse #2 in Fig. 8c of ref. 1. The authors requested a correction to address this but have been unable to retrieve the underlying raw data. Readers are therefore advised to interpret these data with caution.

Qixia Xu and Yu Sun agree to this Editorial Expression of Concern. The other authors have not responded to any correspondence from the editor or publisher about this Editorial Expression of Concern.
